"As long ago as 1905 Sir Walter Raleigh sketched the first plan of this book, and in 1909 Sir Sidney Lee undertook its production. He arranged for the writing of most of the treatises now published, set on foot the first selection of the illustrations, ... and made additions from his own collections and from fresh researches. In 1911 he was obliged to postpone work upon the book ... Successive editors who took up the task were withdrawn by war work in the course of 1914-15." 126 Shakespeare's England: an account of the life & manners of his age ... Oxford, Clarendon press, 1916.

2 v. fronts, illus., plates, ports., maps, facsim. 231".

"As long ago as 1905 Sir Walter Raleigh sketched the first plan of this book, and in 1909 Sir Sidney Lee undertook its production. He arranged for the writing of most of the treatises now published, set on foot the first selection of the illustrations, ... and made additions from his own collections and from fresh researches. In 1911 he was obliged to postpone work upon the book ... Successive editors who took up the task were withdrawn by war work in the course of 1914-15." The Clarendon press has employed Charles Talbot Onions for the completion of the work—Pref.

Sheep.
Custis, George Washington Parke, 1781-1857.
An address to the people of the United States, on the importance of encouraging agriculture and domestic manufactures; tending to show that by a due encouragement of these essential interests, the nation will be rendered more respectable abroad and more prosperous at home. Together with an account of the improvements in sheep at Arlington, the native sheep of Smith's Island, and the plans proposed of extending this valuable race of animals, for the benefit of the country at large. By George
